

**REMARKS**

The Office Action dated March 25, 2010 requires the Applicant to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. In response to this requirement, applicants provisionally elect to prosecute Species I. It is believed that claims 1-4 read on the elected species. The applicant reserves the right to file divisional applications on the non-elected claims.

The specification has been amended to correct typographical error in the paragraph beginning on page 16, line 10 of the original specification. It is believed that one skilled in the art recognizes that the original term " $\tau$  - $\tau$  annihilation" should have been "T-T annihilation," that means triplet-triplet annihilation.

The applicant respectfully requests an early examination on the elected claims and favorable action on the merits. If the Examiner has any questions associated with this Response, the Examiner is encouraged to call the undersigned at the indicated telephone number.
